

## Meeting the demand for quality training...

As an industry, we are moving into the closing stages of the race to implement a 'low float'/faster payments system with the result that it is becoming increasingly important for financial institutions to get their training and communications right, as well as the core application functionality.

Many banks have been asking our advice on how to:

- ⌚ best communicate Faster Payments (FP) to their wider sales team/ business?
- ⌚ best communicate the FP scheme to their retail customers/ agency clients/ corporate clients?

Our response has been to partner with Eukleia, the award winning Financial Services training specialists, to deliver a solution for low cost FP communications to the wider business. By partnering with Eukleia we have the ability to deliver our high value FP knowledge through a medium that's cost effective, engaging, and rapidly deployable. To understand the value this could generate for your business please do contact us and request a free login to the prototype version.

## About Eukleia

Eukleia Training is a specialist training company established in 2005. Eukleia's directors have unrivalled experience of financial services training across a number of subject areas, including technical, regulatory and business ethics. Eukleia develops computer based training or "e-learning" using the latest techniques in instructional design and powerful software design tools to provide courses that are highly interactive and visually appealing. The courses are fully SCORM 1.2 compliant and can be integrated onto any SCORM learning management system. Eukleia was accredited as an FSSC Training Provider in February 2007.

## Our FastPayments.co.uk...

For over a year now our business has been delivering courses and communications packages both to the wider commercial industry and to financial institutions seeking expert advice on Faster Payments. We are a well respected source of industry news and analysis on the FP initiative and continue to actively engage partners from both banks and the wider corporate world.

## FP learning:

FastPayments.co.uk continue to run workshop and customised sessions that cover the main principles of Faster Payments, its components, and it's wider credit, clearing, and fraud implications. Contact us to register an interest.
